

Distance Learning at Dar Al-Hekma University

In compliance with the decision of the Ministry of Education on distance learning, Dar Al-Hekma University has adopted a very systematic and structured strategy to follow up on completing the academic year through distance learning. To be able to do that, the University has used different online platforms through which courses and homework assignments were given and tests were administered in order to complete all course curricula. Cultural activities, health, sports, and awareness activities were also given online for all students and faculty members.
