Information Technology (IT)

• The IT Department managed to get free licenses for Endpoint Protection to be installed in the employees' Mobile phones and personal computers to provide the best secure work environment.

• It held a webinar session presented by ConnectYard company, the leading provider of student engagement solutions, to introduce a new feature in Blackboard that allows instructors to easily message their students through WhatsApp.

• The IT Department added to Blackboard the above new feature, which also allows and confirms the receipt of those messages.
